**114.4.2 Each day a separate offense.** Each day that a violation continues is a separate offense. Proof that a violation exists on any date after issuance of a violation notice is prima facie evidence that the violation has continued unabated throughout the intervening period.

**114.4.3 Penalties.** The penalty for each offense is as follows:

1. for work done without a permit or in violation of a stop-work order, a fine of not more than \$500 or imprisonment for not more than 90 days or both fine and imprisonment, and

**115.3 Unlawful continuance.** *{As in IBC}*

**115.4 Removal, etc., of posted notice.** Until the Building Official so authorizes, no person may remove, deface, damage, or change any notice, poster, or sign placed under this section on any land, structure, or other object.

**SECTION 116 UNSAFE STRUCTURES**

**116.1 General.** Any structure or part of a structure found to be unsafe or unfit for human habitation or other authorized use must be rehabilitated or, as permitted or required by the Building Official, demolished.

**116.1.1 Scope.** A structure may be unsafe or unfit for human habitation or other authorized use because of:

1. conditions constituting a fire hazard or conditions of damage, decay, dilapidation, obsolescence, abandonment, vacancy (as described in § 116.4), insanitation, or vermin or rodent infestation that constitute a hazard to the health, welfare, or safety of occupants or the public,
2. lack of sanitation, illumination, ventilation, heating, plumbing, exitways, fire protection, utilities, or other facilities adequate to protect the health, welfare, or safety of occupants or the public, or
3. conditions that are so unsafe, insanitary, overcrowded, improper in use or occupancy, or otherwise dangerous to life, health, welfare, or safety as to create a hazard to occupants or the public.

**116.2 Occupied unsafe structures.** Whenever the Building Official or the Commissioner of Health finds all or any part of an occupied structure to be unsafe or unfit for human habitation or other authorized use:

1. either the Building Official or Commissioner of Health may:
  - a. post an order requiring the structure or affected part to be vacated, and
  - b. take necessary steps to remove occupants who fail or refuse to vacate,
2. once vacated, the structure or affected part may not be reoccupied until:
  - a. it is rehabilitated to comply with all applicable codes and ordinances, and

- b. the Building Official has issued an occupancy permit, and
- 3. pending rehabilitation, the structure must be kept secure against casual entry and the premises kept free of occupants, litter, high grass, and weeds.

**116.3 Temporarily unoccupied structures.** Any structure or part of a structure that has been left unoccupied without removing appliances or portable equipment or furniture and without disconnecting utility service must be safeguarded by closing and securely locking all windows, doors, and other openings.

**116.4 Vacant structures.** Every vacant structure, as defined in this § 116.4, is declared to be a fire hazard and a nuisance per se, and must be safeguarded and otherwise maintained as required in this § 116.4.

#### **116.4.1 Definitions.**

**116.4.1.1 General.** In this § 116.4, the following terms have the meanings indicated.

**116.4.1.2 Vacant structure.** “Vacant structure” means an unoccupied structure that is:

- 1. unsafe or unfit for human habitation or other authorized use, or
- 2. a nuisance property.

**116.4.1.3 Nuisance property.** “Nuisance property” means:

- 1. an unoccupied structure for which 2 or more final, non-appealable Building Code, Fire Code, or Property Maintenance Code violations remained unabated for 10 days or more beyond the date by which the violation notice, citation, or order required the violation to be corrected; or
- 2. the exterior premises of an unoccupied structure for which, at any time within the preceding 12 months, on 6 or more separate occasions, final, no-longer appealable violation notices, citations, or orders were served to correct violations of Property Maintenance Code, § 305 {“Exterior Sanitary Maintenance – General”} or § 306 {“Exterior Sanitary Maintenance – Trash, Garbage, and Debris”}.

#### **116.4.1.3.1 Registered interest holders.**

**116.4.1.3.1.1 Registration authorized.** A holder of an interest in a structure by way of a mortgage or deed of trust may register that interest in the Housing Commissioner’s Registry of Non-Owner-Occupied Dwellings, Rooming Houses, and Vacant Structures (City Code Article 13, Subtitle 4).

**116.4.1.3.1.2 Notice required to registrants.** Before declaring an unoccupied structure to be a nuisance property, the Building Official must send a notice, by first-class mail or email, to any interest holder that is registered for that structure under City Code Article 13, Subtitle 4 {“Registration of Non-Owner-Occupied Dwellings, Rooming Houses, and Vacant Structures”}.

**116.4.1.3.1.3 Tenor of notice.** The notice shall provide the interest holder with the opportunity to avoid a declaration of public nuisance if, within 30 days of the mailing, the interest holder:

1. abates all outstanding violations; and
2. submits a reasonable plan to the Building Commissioner for regular maintenance of the property.

**116.4.1.3.2 Official's corrective actions do not constitute abatement.** Actions taken by the Building Official to clean, secure, or repair a property do not preclude the Building Official's determination that the property is a nuisance property.

**116.4.2 Determination of vacancy, noncompliance.** A determination of vacancy and a determination of noncompliance with a notice or order issued under this section may be based on observation that a structure:

1. contains, at any level, any open window or door, any opening caused by damage or decay, or any other opening that is unprotected from intruders,
2. has boarded windows or doors, or
3. lacks intact doors, windows, window sashes, walls, or roof surfaces to protect against the elements.

**116.4.3 Required safeguarding.** Every vacant structure must be cleaned, closed, and safeguarded as follows:

1. Before the structure is closed and secured, all litter, trash, and other debris must be removed from the premises.
2. All windows, doors, and other openings must be closed, securely locked, and, if readily accessible, boarded up with substantial material, including masonry, approved by the Building Official. The Building Official may require windows facing streets to be boarded with lexan, vinyl, or similar material, protected by security grills, or both.
3. As long as the structure remains unrehabilitated:
  - a. it must be kept boarded,
  - b. the premises must be conspicuously posted against trespass, and
  - c. the premises must be kept free of occupants, litter, trash, debris, high grass, and weeds at all times.
4. Boarding, posting, and cleaning, however, do not relieve the owner of responsibility to demolish or to repair and maintain the property in conformity with this Code.
5. The structure may not be reoccupied until the Building Official has issued an occupancy permit.

**116.4.4 Emergency condition.** A vacant structure that is not kept boarded and free from accumulations of debris and high vegetation or that, in the opinion of the Building Official, is so dangerously unsound or so deteriorated that rehabilitation is not feasible, constitutes an emergency condition that imminently threatens the public health and safety and requires immediate resolution.

**116.4.5 Rodenticide procedure.** *See* § 3314 of this Code.

**116.4.6 Notice to Public Works.** Whenever the Building Official determines a structure to be vacant, the Building Official must promptly notify the Director of Public Works of that determination. On receipt of the notice, the Director of Public Works must proceed to cut off water service, as provided in City Code Article 24, § 2-3 {“Cut-off for nonpayment”}.

**116.5 Rehabilitation, demolition, and stabilization.** Except as otherwise authorized or required under this section, a structure found to be unsafe or unfit for human habitation or other authorized use must be rehabilitated and an occupancy permit obtained.

**116.5.1 Permitted demolition.** On timely appeal of an order to rehabilitate, the Building Official may permit an owner to demolish an unsafe structure instead of rehabilitating it if, in the Building Official’s opinion, demolition is not detrimental to the immediate neighborhood.

**116.5.2 Required demolition.** The Building Official may order the immediate demolition of any unsafe structure that, in the Building Official’s opinion, is either so dangerously unsound or so deteriorated that rehabilitation is not feasible.

**116.5.2.1 Appeal.** The recipient of an order to demolish an unsafe structure may request administrative review of the order under § 128 {“Administrative and Judicial Review”} of this Code.

**116.5.2.2 Rescission of demolition order.** The Building Official may rescind or modify a demolition order if the owner demonstrates the financial ability and requisite expertise to rehabilitate the structure within a reasonable time, as determined by the Building Official, and agrees to comply with a specified timetable. Failure to comply with an agreed timetable reinstates the demolition order.

**116.5.3 Stabilization.** The Building Official may permit or order an interim stabilization of an unsafe structure pending its rehabilitation.

**116.5.4 Reoccupancy of rehabilitated structure.** A structure declared unsafe or unfit for occupancy may not be reoccupied until the Building Official has:

1. abated the violation notice or order, and
2. issued an occupancy permit.

**116.6 Vacant lot maintenance.** When a structure has been demolished under this § 116, the premises must be made to conform to the provisions of this Code and of the regulations adopted under this Code.

**116.7 Remedial action by Building Official.** The Building Official may take action under this § 116.7 whenever the owner, agent, or person in control cannot be found or fails to comply with a notice or order served under this Code:

1. to repair, rehabilitate, stabilize, or demolish an unsafe structure,
2. to clean, close, board, or otherwise safeguard a vacant structure, or
3. to remove high grass and weeds or litter, trash, and debris from the premises of a vacant structure.

**116.7.1 Actions authorized.** The Building Official may proceed to:

1. have a receiver appointed, or
2. complete all or any part of the required work through officers, agents, employees, or contractors.

**116.7.2 Entry to property.** Before taking any remedial action, the Building Official may enter the premises, without additional notice, to determine the extent of deterioration and the feasibility of rehabilitation.

**116.7.3 When additional notice not required.** Boarding, cleaning, and otherwise safeguarding a vacant structure that is subject to an expired violation notice is an emergency action that requires no additional prior notice.

**116.7.4 Remedies nonexclusive.** Remedial action under this § 116 does not preclude any other enforcement action authorized by this Code.

## **116.8 {Reserved}**

**116.9 “Abandoned” property.** If a property is cited as “vacant” or “unfit for human habitation” on a violation notice issued under this § 116, the property is considered to be cited as “abandoned” or to be in need of substantial repair within the meaning of the State Tax-Property Article, Title 14, Subtitle 8.

**116.10 Effect of designation.** On issuance of a violation notice that designates a structure to be a vacant structure, the structure is deemed to be condemned.

## **SECTION 117 EMERGENCY AND CORRECTIVE MEASURES**

**117.1 Power of Building Official in emergencies.** In an emergency where life, health, safety, or property is in immediate danger, the Building Official may immediately take any action necessary to protect the endangered life, health, safety, or property, without complying with the notice provisions of this Code.

**117.2 Photographs of dangerous conditions.** In all emergencies, if it is practical and if enough time is available to do so, the Building Official must cause the dangerous or unsafe condition that created the emergency to be photographed before any demolition or other work or operation is begun to eliminate the dangerous or unsafe condition.

**117.3 Closing streets.** When necessary for the public safety, the Building Official may temporarily close adjacent structures and request the Director of Transportation to close adjacent sidewalks, streets, and other public ways and prohibit them from being used. The Building Official may

temporarily close adjacent sidewalks, streets, and other public ways only pursuant to an agreement with the Department of Transportation.

**117.4 Labor and material for emergency work.** In an emergency where life, health, safety, or property is in immediate danger and it is necessary to perform any work or operation to protect that life, health, safety, or property, the Building Official may employ the persons and buy the materials needed to perform the work or operation as expeditiously as possible.

**117.5 Liability for costs of emergency work.** Liability for expenses incurred in the course of performing emergency work and the procedure for collecting resultant debts and liens are as provided in § 118 {"Liability for Expenses..."} of this Code.

## SECTION 118 LIABILITY FOR EXPENSES AND COLLECTION OF DEBTS AND LIENS

**118.1 Scope.** This § 118 applies to all cases where:

1. the Building Official enforces any provision of this Code, including but not limited to:
  - a. the elimination of any safety, health, or fire hazard,
  - b. the elimination of any nuisance, blight, or insanitary condition,
  - c. the removal of any abandoned or illegally constructed structure or other object, or
  - d. the taking of any corrective action in emergencies or otherwise, and
2. in connection with those efforts, the Building Official or any department, agency, unit, or body corporate and politic of this State, including the Maryland Stadium Authority:
  - a. furnishes or causes to be furnished any labor, supervision, equipment, or materials, or
  - b. performs or causes to be performed any inspection, work, or operation to eliminate the hazard or condition or to remove the structure or other object.

*(Ord. 16-524.)*

**118.2 Liability and lien for expenses.** In the cases described in § 118.1, the entire amount of the Building Official's expenditures and of the expenditures incurred by any department, agency, unit, or body corporate and politic of this State, including the Maryland Stadium Authority, together with all incidental costs and all accrued penalties:

1. are a personal debt owed to the City jointly and severally by every person made liable under this Code, and
2. are a lien in favor of the City on the land and improvements in respect to which the expenditures were made.

*(Ord. 16-524.)*

**118.3 When debts and liens become effective.** All debts become due and owing to the City immediately when the work is completed or the expenditure made. All liens become effective

immediately after the Building Official notifies the Bureau of Liens that appropriate notice has been given or that a structure has been posted in accordance with this Code.

**118.4 Collection of debts and liens.** All debts due and liens incurred under this § 118:

1. are collectible from any assets of the persons made liable under this Code, including a former owner, and
2. may be collected and enforced in the same way that the City collects and enforces other debts due to it or liens in its favor.

**118.5 Priority over other liens and encumbrances.** All debts and liens incurred under this § 118 have priority over all other liens and encumbrances, except taxes or other government assessments.

## SECTION 119 *{Reserved}*

## SECTION 120 CONDEMNATION PROCEEDINGS

**120.1 In general.** If any land, structure, or equipment becomes unsafe or dangerous to public health or safety, the Building Official may condemn the land, structure, or equipment as provided in this § 120 and issue a condemnation notice as provided in § 123 {"Notices"} of this Code. The issuance of a violation notice is not a prerequisite for the condemnation of real property.

**120.2 Posting notice.** If the Building Official condemns any land, structure, or equipment, the Building Official must cause a notice to be conspicuously displayed on the condemned land, structure, or equipment.

**120.2.1 Contents.** The notice must:

1. be at least 24 inches wide 8 inches high,
2. be signed by the Building Official, and
3. advise the public that:
  - a. the particular land, structure, or equipment has been condemned as being unsafe or dangerous for occupancy or use, and
  - b. the public is warned to keep away.

**120.2.2 Emergencies.** In case of an emergency where life or property may be in immediate danger, the Building Official need not post the property and may proceed in accordance with § 117 {"Emergency and Corrective Measures"} of this Code.

**120.3 Vacating condemned property.** A notice posted under § 120.2 is deemed to be sufficient warning to all occupants of the condemned property to leave immediately. If any occupant fails to vacate the property immediately after the notice is posted, the Building Official may take whatever action is proper and expedient to remove that occupant.

**120.4 Receiver of condemned property.** After a property is condemned, the Building Official may:

1. take any action authorized under § 120.7, or
2. in accordance with § 121 {"Vacant Building Receiver"} of this Code, apply to court for the appointment of a receiver.

**120.5 Status of condemned property.** After property has been condemned and posted in accordance with this § 120, that property remains condemned and may not be occupied or used again until the Building Official declares the property safe for occupancy or use and has removed the condemnation.

**120.6 Order to demolish.** If, in the Building Official's opinion, a structure is so dangerously unsound or so deteriorated that rehabilitation is not feasible, the condemnation notice may order the owner to demolish the structure immediately.

**120.7 Removal of unsafe conditions.** Anytime after property has been posted in accordance with this § 120, the Building Official may demolish, move, alter, repair, rehabilitate, rebuild, reconstruct, or take any other appropriate action to eliminate or make safe and secure any dangerous or unsafe condition. Before doing so, however, the Building Official must provide the notice required by § 105.9 {"Special requirements for demolition or moving"} of this Code.

**120.8 Condemnation of electrical work.** If any electrical wiring or equipment that has been the subject of a condemnation notice is not made safe within the time required by the condemnation notice, the wiring or equipment must be put out of service by cutting off all electric current to it and by sealing all switches that operate in connection with the wiring or equipment.

**120.8.1 Emergency action.** In case of an emergency where life or property is in immediate danger, the Building Official may order all electric current serving the wiring or equipment to be cut off and all switches that control the wiring or equipment to be sealed. The Building Official's orders must be complied with immediately, regardless of any other provisions of this Code that might apply.

**120.8.2 Permission needed to reactivate.** Whenever electric current has been cut off or switches have been sealed under this § 120.8, the electric current may not be cut in and the seals may not be broken, except by an authorized agent of the Building Official, after all requirements of the Building Official have been complied with and the Building Official has issued a certificate of approval.

**120.9 Condemnation of mechanical work.** If any mechanical equipment that has been the subject of a condemnation notice is not made safe within the time required by the condemnation notice, the mechanical equipment must be put out of service and sealed.

**120.9.1 Emergency action.** In case of an emergency where life or property is in immediate danger, the Building Official may order the mechanical equipment to be put out of service and sealed. The orders of the Building Official must be complied with immediately, regardless of any other provisions of this Code that might apply.

**120.9.2 Permission needed to reactivate.** Whenever mechanical equipment has been put out of service and sealed under this § 120.9, the mechanical equipment may not be put back in service and the seals may not be broken, except by an authorized agent of the Building Official, after all requirements of the Building Official have been complied with and the Building Official has issued a certificate of approval.

**SECTION 121 VACANT BUILDING RECEIVER**

**121.1 Scope.** This § 121 applies to a vacant structure, as defined in § 116.4 {“Unsafe vacant structures”}, for which a notice or order to rehabilitate or to demolish is outstanding.

**121.2 In general.** The Building Official may petition the court for appointment of a receiver to rehabilitate a vacant property, to demolish it, or to sell it to a qualified buyer. Except as otherwise provided in this § 121, the receiver may be any person.

**121.3 Contents of petition.** The petition for appointment of a receiver must include:

1. a copy of the original violation notice or order, and
2. a verified pleading that:
  - a. avers that the required rehabilitation or demolition has not been completed, and
  - b. identifies and states the qualifications of the proposed receiver, if other than the Building Official.

**121.4 Named respondents.** The petition for appointment of receiver must name as respondents:

1. the owner of the property,
2. any lien holder of record, and
3. the plaintiff in any proceeding that was timely filed under State Tax-Property Article § 14-833 {“Foreclosing right of redemption”} and for which the time for securing a decree of foreclosure has not yet expired.

**121.4.1 Effect of failure to name plaintiff.** Failure to name a person described in § 121.4(3) does not prevent the action from going forward, but does prevent the receiver’s lien for expenses incurred in rehabilitating, demolishing, or selling the vacant building from having priority over that person’s lien interest.

**121.5 Filing with Bureau of Liens.** A notice of the proceeding, together with a copy of the violation notice or order, must be filed with the Bureau of Liens. The Bureau must include a record of these in its lien reports, and the property cannot be transferred without the prior approval of the court.

**121.6 Notice to judgment creditors and lien holders.** After filing the petition and before a receiver is appointed, the Building Official must give notice of the pendency and nature of the proceedings by regular and certified mail to the last-known addresses of all judgment creditors and lien holders with a recorded interest in the property.

**Exceptions:**

1. This notice is not required for respondents named under § 121.4 {“Named respondents”} of this Code.

2. The Building Official is not required to send notices to any creditor or lien holder whose interest in the property is unrecorded.

**121.6.1 Intervention.** Within 30 days of the date on which the notice was mailed, a judgment creditor or lien holder with a recorded interest in the property may apply to intervene in the proceeding and to be appointed receiver. A creditor or lien holder whose interest is not recorded does not have standing to intervene in the proceeding and is not eligible to be appointed receiver.

**121.6.2 Effect of failure to give notice.** Failure to give any required notice to any interested person under this § 121 does not prevent the action from going forward, but does prevent the receiver's lien for expenses incurred in rehabilitating, demolishing, or selling the vacant building from having priority over that person's lien interest.

**121.7 Appointment of owner, etc., instead of receiver.** Instead of appointing a receiver to rehabilitate or sell a vacant building, the court may permit an owner, mortgagee, or other person with an interest in the property to rehabilitate or demolish it, if that person:

1. demonstrates ability to complete the rehabilitation or demolition within a reasonable time,
2. agrees to comply with a specified schedule for rehabilitation or demolition, and
3. posts bond, in an amount determined by the court, as security for performance of the required work in compliance with the specified schedule.

**121.7.1 Application to dismiss owner.** If it appears to the petitioner that the person appointed is not proceeding with due diligence or in compliance with the court-ordered schedule, the petitioner may apply to the court for immediate revocation of that person's appointment and for appointment of a receiver. The bond posted under this section must then be applied to the subsequently appointed receiver's expenses in rehabilitating, demolishing, or selling the vacant building.

**121.8 Appointment of receiver.** If no qualified person with an ownership interest requests appointment to rehabilitate or demolish the property, or if an appointee is dismissed, the court must then appoint a receiver of the property for the purpose of rehabilitating and managing the property, demolishing the property, or selling it to a qualified buyer.

**121.8.1 Parties divested of authority.** On appointment of a receiver to rehabilitate, demolish, or sell the property, all parties are divested of any authority to act in furtherance of those goals.

**121.8.2 Penalties.** Any party who takes any step to rehabilitate, demolish, or sell the property is subject to the penalties for contempt.

**121.8.3 Receiver not responsible to maintain or protect the property.** A receiver appointed to rehabilitate, demolish, or sell a vacant building has no duty to, and is not personally liable for failing to, maintain the property or protect the property from casualty or loss.

**121.9 Powers of receiver appointed to rehabilitate or demolish.** A receiver appointed to rehabilitate or demolish a vacant building, in addition to all necessary and customary powers, has the right of possession with authority to:

1. contract for necessary labor and supplies for rehabilitation or demolition,
2. borrow money for rehabilitation or demolition from an approved lending institution or through a government agency or program, using the receiver's lien against the property as security,
3. manage the property after rehabilitation, with all the powers of a landlord, for a period of up to 2 years and apply the rent received to current operating expenses and to repayment of outstanding rehabilitation expenses, and
4. foreclose on the receiver's lien or accept a deed in lieu of foreclosure.

**121.10 Powers of receiver appointed to sell.** A receiver appointed to sell a vacant building, in addition to all necessary and customary powers, may sell the property to the high bidder at public auction, following the provisions that apply to a receiver appointed under Rule 3-722 {"Receivers"} and Title 14, Chapter 300 {"Judicial Sales"} of the Maryland Rules. If the property fails to sell at public auction, the receiver may sell the property in a private sale.

**121.10.1 Notice of auction.** In the notice of public auction, it is sufficient to describe the property by a street address and by reference to the liber and folio number of the title deed recorded in the land records of Baltimore City.

**121.10.2 Buyer qualifications.** Before any sale, the applicants to bid in a public sale or the proposed buyer in a private sale must demonstrate the ability and experience needed to rehabilitate the property within a reasonable time.

**121.10.2.1 Application fee.** The receiver may charge a reasonable fee to applicants in connection with the application to bid at a public sale or in connection with the solicitation of offers for a private sale.

**121.10.3 Application of sale proceeds.** After deducting the expenses of the sale, the amount of outstanding taxes and other government assessments, and the amount of the receiver's lien, the receiver must apply any remaining proceeds of the sale, first to the petitioner's costs and expenses, including reasonable attorney's fees, and then to the liens against the property in order of priority.

**121.11 Tenure of receiver appointed to rehabilitate.** The tenure of a receiver appointed to rehabilitate a vacant building may extend no longer than 2 years after rehabilitation. Anytime after rehabilitation, any party to the receivership may file a motion to dismiss the receiver on payment of the receiver's outstanding costs, fees, and expenses.

**121.12 Final accounting.** At the end of the receiver's tenure, the receiver must file a final accounting with the court.

**121.13 Receiver's lien for costs, etc.** Any costs or fees incurred by the receiver are a lien against the property in accordance with § 118 {"Liability for Expenses ..."} of this Code. The receiver's lien has priority over all other liens and encumbrances, except taxes or other government assessments. The receiver must allow the petitioner's costs and expenses, including reasonable attorney's fees, to be paid to the extent that the proceeds of the sale permit.

**121.13.1 Foreclosure of lien.** A receiver may foreclose on the lien by a sale of the property at public auction, following 1 public notice and notice to interested parties in the manner of a mortgage foreclosure. After deducting the expenses of the sale, the receiver must apply the proceeds of the sale to the liens against the property, in order of priority. In lieu of foreclosure, and only if the receiver has rehabilitated the property, an owner may pay the receiver's costs, fees, including attorney's fees, and expenses or may transfer all ownership in the property to either the receiver or an agreed-on third party for an amount agreed to by all parties to the receivership as being the property's fair market value.

**121.14 Transfer on sale.** Following court ratification of a sale, the receiver must sign a deed conveying title to the buyer, free and clear of all liens, judgments, and other encumbrances. On court ratification of the sale, any secured interest of a lien holder or judgment creditor automatically attaches to the proceeds from the sale, to the extent those proceeds are available under § 121.10.3 {"Application of sale proceeds"}.

**121.15 Dismissal.** On sale of the property, the receiver must:

1. file with the court a final accounting, and
2. at the same time, file a motion with the court to dismiss the action.

## SECTION 122 *{Reserved}*

**123.5 When notices to be issued.** Except as otherwise specified in this Code, notices must be issued in all cases where legal proceedings might be necessary to enforce this Code.

**123.5.1 Condemnation notices.** For any land, structure, or equipment being condemned, the condemnation notice must be issued to the owner of the land, structure, or equipment.

**123.5.2 Violation notices.** For violations, the violation notice must be issued to the person who committed or otherwise is responsible for the violation.

**123.6 Service of notice – General.** Except as otherwise specified in § 123.7 {"Service of notice – Posting"}, all notices issued by the Building Official must be served on the person that the notice is intended for or on any authorized agent or representative of that person.

**123.6.1 More than 1 person responsible.** If more than 1 person is responsible for the violation or responsible for complying with this Code, as in a case of property owned by more than 1 person, notice may be served on any 1 of those persons or on any authorized agent or representative of any of them.

**123.6.2 Method of service.** A notice is properly served if:

1. served personally on the owner, agent, person in control, former owner, or other person responsible for the property,
2. hand delivered to that person's home, business, or tax record address, or
3. sent by certified or registered mail to that person's home, business, or tax record address.

**123.6.3 Authorized server.** Service under § 123.6.2(1) or (2) must be made by:

1. a member of the Baltimore City Police Department, or
2. an official or employee of the City or the State of Maryland.

**123.7 Service of notice – Posting.** Adequate and sufficient notice may be made by posting a copy of the notice on the property in question if:

1. the identity or whereabouts of the owner, agent, person in control, former owner, or other person responsible for the property is unknown, or
2. notice mailed under § 123.6 is returned unclaimed or refused or is designated undeliverable by the post office for any other reason, and neither of the following sources can provide a more accurate address:
  - a. the tax records of the Bureau of Treasury Management, Collections Division, and

**428.2 Scope.** This section covers regulations for circuses and carnivals that are not provided for in other sections of this Code.

**428.3 Permit required.** Before any person may begin to set up any structure, appliance, or equipment for a circus or carnival, the person must obtain the appropriate permit from the Building Official.

**428.4 Insurance for mechanical rides, etc.** Every application for a circus or carnival permit must specify whether or not mechanical rides or devices will be used in connection with the circus or carnival. If mechanical rides or devices will be used, the person supplying these rides or devices must, before the permit may be issued, furnish satisfactory evidence of insurance, in an amount that the City's Office of Risk Management considers sufficient, to:

1. insure the applicant, and name the City as an additional insured, against liability for damage or injury to property or person, including death, due to faulty equipment or negligence, and
2. indemnify the City against any suit, loss, claim, damages, or expense to which the City is subjected because of any damage or injury to property or person, including death, or injury to any public highway or other public property done by or in connection with the transportation, erection, operation, maintenance, or supervision of a mechanical ride or device.

**428.5 Financial responsibility.** Before a permit may be issued, the applicant must furnish proof of financial responsibility, in the form of a certificate of insurance from an insurer authorized to do business in this State. The certificate of insurance must state that the circus or carnival is insured against any legal liability (other than that covered by § 428.4), caused by accidents or otherwise and resulting in damage or injury to property or person, including death, as a consequence of the ownership, operation, or maintenance of the circus or carnival or otherwise in any way connected with the circus or carnival. The insurance must be for at least the amount that the City's Office of Risk Management considers sufficient to protect the public, and must name the City as an additional insured. Additionally, the insurance must be in an amount that the City's Office of Risk Management considers sufficient to:

1. insure the applicant against liability for damage or injury to property or person, including death, due to faulty equipment or negligence, and
2. indemnify the City against any suit, loss, claim, damages, or expense to which the City is subjected because of any damage or injury to property or person, including death, or injury to any public highway or other public property done by or in connection with the applicant's business.

**428.5.1 Nonresident applicants.** If the applicant is not a resident of the City, the applicant and the insurer must execute a power of attorney that authorizes the Building Official to accept on their behalf service of notices, processes, and any actions arising out of the ownership, operation, or maintenance of the circus or carnival or otherwise in any way connected with the circus or carnival. If the applicant is a nonresident corporation, the corporation, in addition to complying with all other requirements of this Code, must submit with its application a certificate from the

Maryland Department of Assessments and Taxation certifying that it is a corporation authorized to do business in this State.

**428.5.2 Nonprofit entities excepted.** This § 428.5 does not apply to any applicant that is a church, school, charitable organization, veterans' organization, or other nonprofit organization.

**428.6 Zoning requirements.** The provisions of the Baltimore City Zoning Code that prohibit carnivals in residential areas do not apply to a carnival that:

**428.7.2 Side or branch aisles.** Side or branch aisles that are open at both ends must be at least 6 feet (1.83 m) wide for a length of up to 50 feet (15.24 m), plus an additional 1 foot in width for each additional 50 feet (15.24 m) or fraction of 50 feet (15.24 m) in length. Side or branch aisles that are open at only 1 end must be at least twice the width for side or branch aisles that are open at both ends.

**428.8 Circus and carnival structures.** Circus and carnival structures, in addition to complying with all other applicable provisions of this Code, must comply with the requirements of this § 428.8.

No water from any building may be discharged so as to run or flow over any sidewalk, footway, or any adjoining property, except from window sills, copings, or cornices that project no more than 1 foot (305 mm).

**1503.4.5 Exceptions.** Section 1503.4.4 does not apply to:

## **SECTION 3806 TRAFFIC-MITIGATION FEE**

**3806.1 Scope of section.** This § 3806 is applicable to all proposed projects located inside of a Traffic-Mitigation Zone.

**3806.2 General.** A Traffic-Mitigation Fee is a payment that, by authority of Charter Article II, §§ (40) and (47), must be paid for projects that meet the criteria established in § 3802.3 {"Within Traffic-Mitigation Zone"}.

**3806.2.1 Application and processing fee.** An application to begin the required Traffic-Mitigation Fee process must be:

1. made in the form and within the time frame set forth in the rules and regulations adopted under this Chapter; and
2. accompanied by a processing fee in the amount set by these rules and regulations.

### **3806.3 Assessment of fee.**

**3806.3.1 Trip formula.** The rules and regulations adopted under this Chapter must establish:

1. procedures for determining the number of trips attributable to various types of projects in a particular Traffic-Mitigation Zone or Subzone; and
2. adjustment factors for calculating the number of non-single-occupant-vehicle trips attributable to various types of projects.

**3806.3.2 Fee Rates.** The fee rate per trip is as set by the Board of Estimates, in consultation with the Director, for each Zone.

**3806.3.2.1 Temporary limitation on Fee Rate increases.** For the period beginning when a fee rate is initially set for a Zone, and ending on December 31, 2016, the Board of Estimates may not increase the fee rate for that Zone more often than once every 5 years.

**3806.3.3 Fee formula.** The amount of the Traffic-Mitigation Fee assessed on a specific project is determined by multiplying:

1. the applicable rate per trip, as of the date that the permit is applied for, for the Zone where the project is located, by
2. the number of trips that the Department of Transportation attributes to the project using the procedure established under § 3806.3.1.

### **3806.4 Trip-Generation Credits.**

**3806.4.1 General.** The Director must issue trip-generation credits to any proposed project that meets the requirements of this § 3806.4. Each credit issued reduces by 1 the number of trips used to calculate the amount of the Traffic-Mitigation Fee under § 3806.3.

**3806.4.2 Authorized credits.** Trip-generation credits are authorized as follows.

**3806.4.2.1 Negotiated agreement.** The Director may agree to issue trip-generation credits for a proposed project if:

1. the Mayor and City Council enter into a binding, written mitigation agreement with the developer of the project that requires the performance of specific actions that the Director determines will reduce the number of trips actually generated by the project,
2. the mitigation agreement requires the developer to require all subsequent purchasers or occupants of the property to abide by the ongoing requirements of the mitigation agreement,

3. the mitigation agreement includes a mechanism making it binding on all future successors and assigns who may acquire any interest in the property in the future,
4. the mitigation agreement requires the Director to issue a number of credits equivalent to the number of trips that the director calculates will be avoided through the actions agreed to by the developer, and
5. the mitigation agreement, together with any adjustment factors calculated using the procedure established under § 3806.3.1(2), does not reduce the total number of trips that would otherwise be used to calculate the Traffic-Mitigation Fee by more than 50%.

**3806.4.2.2 Change in occupancy within 1 year.** For the change in occupancy of a structure that has been vacant for less than 1 year before the date of application for a permit, the Director must issue trip-generation credits equivalent to the number of trips attributable to the previous use, as calculated using the procedure established under § 3806.3.1 {“Trip formula”}.

**3806.4.3 Buy-out of credits.** An owner or occupier of property that has benefitted from the issuance of trip-generation credits may not change the use of the property in any way that would no longer qualify the property for 1 or more trip-generation credits previously issued unless the owner or occupier first cancels the previously issued credits.

**3806.4.3.1 Formula.** To cancel those credits, the owner or occupier must pay to the Director of Finance an amount equal to the greater of:

1. the number of trip-generation credits being canceled, multiplied by the Traffic-Mitigation Fee rate that was in force for the Zone when the credits were issued, or
2. the number of trip-generation credits being canceled, multiplied by the Traffic-Mitigation Fee rate that is in force in the Zone when the credits are cancelled.

**3806.4.4 Obligation created by acceptance of credits.** The acceptance of trip-generation credits under this § 3806.4 creates a binding obligation on the persons accepting the credits to fulfill the representations and agreements that allowed the credits to be issued. In addition to any other remedy or enforcement action, the Director may enforce these obligations by seeking both legal and equitable remedies.

**3806.5 Right-of-way dedication set-off.** If an applicant controls property that the Director determines to be necessary for the construction of a traffic-mitigation project, the Director may accept the dedication of the needed property to the City’s use and issue a set-off credit toward the Traffic-Mitigation Fee assessed on a project in exchange. The total amount of the Traffic-Mitigation Fee to be paid would then be reduced by the appraised value of the property dedicated to City use.

### **3806.6 Payment of Fees.**

**3806.6.1 \$50,000 or less.** If the Traffic-Mitigation Fee assessed for a proposed project is \$50,000 or less, the Fee must be paid to the Director of Finance in full before any permits for the work are issued.

**3806.6.2 More than \$50,000.** If the Traffic-Mitigation Fee assessed for a proposed project is more than \$50,000, the Director of Transportation may negotiate installment payments to be made over a period of up to 5 years from the issuance of a building permit for all amounts in excess of \$50,000. The initial payment of at least \$50,000 must be paid to the Director of Finance in full before any permits for the work are issued. Any installment plan under this § 3806.6.2 requires the approval of the Board of Estimates to become effective.

**3806.6.2.1 Interest to be charged on installment payments.** If a Traffic-Mitigation Fee is to be paid in installments under an agreement authorized by § 3806.6.2, installment payments must include an additional interest charge at the current City borrowing rate as determined by the Director of Finance.

## SECTION 3807 USE OF FEES

**3807.1 Separate revenue accounts.** Traffic-Mitigation Fees collected under this Chapter are to be deposited to the General Fund and accounted for in separate revenue accounts designated to indicate precisely how much revenue is derived from each Traffic-Mitigation Zone.

**3807.2 Fees to benefit Zone of origin.** Subject to appropriation, revenue derived from Traffic-Mitigation Fees in each Traffic-Mitigation Zone must be used only for the purposes described in § 3807.3 or for:

1. designing and constructing projects to benefit the transportation infrastructure of the Zone from which the fees derive, as approved by the Planning Commission in the Traffic-Management Plan adopted under § 3805.2 {"Traffic-Management Plans"}.
2. designing and constructing projects to benefit the transportation infrastructure of the Zone from which the fees derive, as certified by the Director, if the Planning Commission has not adopted a Traffic-Management Plan under § 3805.2, or
3. defraying the planning and administrative costs, of no more than 10% of all revenue collected, of implementing this Chapter.

**3807.3 Fees may defray cost of site access improvements.**

**3807.3.1 Site access improvements.** Subject to the approval of the Board of Estimates, the Director may permit up to 33% of the Traffic Mitigation Fee, after deduction of credits, paid by an applicant to be used for minor site access improvements, including turning lanes, acceleration/deceleration lanes, traffic signals, or similar improvements.

**3807.3.2 Use of Fees.** Fees appropriated under this § 3807.3 may be either:

1. rebated to the applicant pursuant to an agreement requiring the applicant to construct these improvements; or

The Director must then determine if the fee in question, or any portion of it, has, within 6 years of payment, been obligated to a specific project.

**3807.5.2 Refund of unobligated fees.** If the Director’s review under § 3807.5.1 determines that a fee has not been entirely obligated to a specific project within 6 years of payment, any unobligated portion of the fee must be refunded to the applicant upon the Board of Estimate’s appropriation of the necessary funds.

**3807.5.3 Accounting method to be published.** The Director, in consultation with the Department of Finance, must establish a standardized method for determining how specific fees are allocated to particular projects for purposes of a review under § 3807.5.1. This accounting method must be included in the rules and regulations adopted under this Chapter.

**SECTION 3808 ENFORCEMENT**

**3808.1 General.** A violation of any provision of this Chapter, of a rule or regulation adopted under this Chapter, or of an agreement entered into under this Chapter constitutes a violation of this Code, subject to the enforcement, penalty, and other provisions of § 114 {“Violations”} and related sections of this Code.
