After any contract for the work of grading, paving, or curbing the street, avenue, lane, or alley, or part thereof, has been awarded in the manner provided by law, the Director of Transportation shall impose a tax upon the property binding on the street, avenue, lane, or alley, or any part thereof, so to be graded, paved, or curbed, equal in amount to the part of the expense that the Director, in his or her discretion, determines is to be borne by the owner or owners of the property, and also 3% on the amount so to be assessed against the property for the costs and expenses of collecting the same.

(b) **Allocation by frontage.**

(1) The Director of Transportation shall apportion the tax so that the several lots of ground binding on both sides of the street, avenue, lane, or alley, or part thereof, to be graded, paved, or curbed, become liable for a pro rata part thereof, according to the frontage of the property thereon.

(2) Provided that, in counting the number of feet which any property abuts upon the street, avenue, lane, or alley to be paved:

   (i) the actual number of such feet shall be taken as to all lots having their front or rear upon said street, avenue, lane, or alley; but

   (ii) corner lots, having their front on some intersecting or crossing street, avenue, lane, or alley, and having their side upon the street, avenue, lane, or alley to be paved, shall be counted for only 1/3 of the length of such side;

It is unlawful for any person, firm, or corporation to do any grading, paving, or repaving of any public street, lane, or alley, or of any private street, lane, or alley used or intended to be used by the public:

(1) without first obtaining from the Director of Transportation a permit for that work;

(2) without conforming to the construction requirements of the Director of Transportation for these streets, lanes, and alleys; or

(2) to require that all grading, paving, and repaving work conform to the true lines and established grades of the streets, lanes, and alleys; and

(3) to require that all grading, paving, and repaving work shall be done under the Director’s supervision and in accordance with plans and specifications approved by the Director.

§ 19-3. Considerations.

In determining whether any proposed grading, paving, or repaving would menace the public safety, security, or health and in approving or disapproving plans and specifications, the Director of Transportation shall consider the following:

(c) **Failure to correct.**

If the nonconformities are not corrected within a reasonable time or, in the judgment of the Director of Transportation, the work actually done has created conditions that menace the public safety, security, or health in the use of the streets, lanes, or alleys as thoroughfares, then the Director of Transportation is authorized and empowered to do any and all work, acts, and things that, in the Director’s judgment, are necessary to eliminate the menace to the public safety, security, or health at the cost and expense of the person, firm, or corporation creating the conditions, which cost and expense shall be a lien on the abutting property of that person, firm, or corporation, until paid.
